

## Knee Extension / Knee Curl (Combined Device)

SCHNELL only offers "combined devices" where a physiologically perfect strength curve is equally achievable for flexion and extension and there are no disadvantages for the patients. When it comes to ensuring even muscle and joint exertion, we will not compromise.

- Two strength curves specifically adapted to each exercise ensure optimum therapy results
- Horizontal and vertical seat alignment to the centre of rotation
- Smooth and rapid positioning of all seat and fixation elements
- Exact patented torque measurement technology and software with benchmark data (optional extra)
